

**Join us! We believe that:**

- Every 3, 4 and 5 year old should have the right to a state funded nursery education place
- Nursery classes and schools should be staffed by qualified teachers and nursery nurses
- All 3, 4 and 5 year olds need to be educated together in the same setting
- Staff working in nursery schools and classes must have regular access to specialist in-service training
- Classes must be adequately staffed (at least 1 qualified adult for every 10 children is required)
- Children must have direct access to appropriate play areas both indoors and outside
- Young children learn most effectively through play, active investigation, enquiry, first hand experience and talk
- Careful planning and skilled organisation of resources provides for and extends children's learning and development
- Parents/carers and staff should work closely together to support children's learning
- Nursery schools and centres are essential because they are centres of excellence and raise the quality of all services for young children
